

### **FLEXIBLE CONDITIONS SKI SEASON 2021/22**

In the event any booked and prepaid ski services for 2020/2021 ski season cannot be used due to force majeure (beyond the control of "Borosport") resulting in closing the entire ski zone the following rules shall apply:

1. If you book/purchase a season lift pass, you have the right to cancel the booking by 15 Dec. 2020. In that case the full amount blocked shall be refunded to you within 30 days from the date of the cancellation.

If in the period 15 Dec. 2020 – 15 March 2021 or the last date when the ski zone is open for the season beyond 15 March 2021 the purchased season lift pass may not be used due to the above mentioned force majeure, you are entitled to choose one of the following compensation options:

- To use the respective remaining portion of the validity period of the ski season lift pass during the summer 2021 season;
- To use a credit in proportion to the unused part of the lift pass validity when purchasing the same type of season lift pass for the next 2021/2022 ski season.

All other prepaid but unused ski services due to the closure of the ski zone (rented equipment, ski/snowboard tuition and kindergarten) shall be transferred as a credit (for the respective prepaid but unused portion of the service/s) when buying the same type of ski services for the next ski season 2021/2022.

"Borosport" reserves the right to amend the booking and cancellation terms for ski services in the event of legislative changes, administrative acts or guidelines by the competent authorities relating to the extraordinary epidemic situation in the country.
